## Correction

To further confirm that the inactivation of Lyn inhibited CD24-induced ERK1/2 activation, we submitted the results of another CD24siRNA (CD24siRNA-2) as the Additional file 1: Figure S2. After publication of the article [1] the authors noted that the wrong figure for Additional file 1: Figure S2 was submitted by mistake. The correct image was conducted in SW480<sup>CD24</sup> using CD24siRNA-2 (new Additional file 1: attached). The authors apologise for any inconvenience caused.

## Additional file

**Additional file 1: Figure S1:** Densitometry results of Figure 1A; **Figure S2:** CD24siRNA-2 results; **Figure S3:** Means  $\pm$  standard errors (SE) for three independent experiments for Figure 4.
