

## REVIEWER ACKNOWLEDGEMENT

## Open Access

# Thanking our peer reviewers

Alan Storey

### Contributing reviewers

As 2013 commences I would like to take a moment to reflect and recognize the peer reviewers that made the previous year possible. Listed below are those people who reviewed for *Molecular Cancer* last year. All are generous individuals who donated their time to assessing and improving our authors' submissions. Your combined efforts have been invaluable to the editorial staff in maintaining the continued success of the journal in the Open Access forum. The editors of *Molecular Cancer* would like to thank all the reviewers who contributed to the journal in Volume 11 (2012) by participating in the review process - taking time out of your busy schedules and even to volunteer - without your critical insights, hard work and support for the journal we wouldn't be able to do what we do.
